

Tamar Raz, PhD

CEO

Dr. Tamar Raz has nearly two decades of experience in technology transfer and an impressive track record of bringing medical innovations from the lab to the marketplace. Prior to joining Hadasit, she served as VP of Marketing and Strategy at Ramot, the technology transfer company of Tel Aviv University. Tamar was the founder and CEO of Allergene Ltd, an Israeli drug development start-up company. She received her MSc and PhD in cell biology from the Tel Aviv University School of Medicine.
